Emblem

Curated Textile Collection - General Information

Emblem's graded-in curated textile collection offers a wide range of high-performance textiles from industry-leading brands. The textiles we've carefully selected from each of these distinctive brands share the following traits:

- Durable (60,000 double-rubs or higher)
- Versatile
- Approved for use across our standard products*
- Stocked heavily in the U.S.A.
- Won't delay your furniture order

Including any of our curated textiles in your Emblem furniture order is easy. Simply reference the list on the following pages to determine which price grade level is assigned to each textile. When placing a furniture order, include the brand, textile pattern, and color. We'll take care of the rest! We are also happy to quote custom furniture with a textile selection from our curated collection.

The grade list on the following pages also includes links to each textile where you may access more information and view the full spectrum of color options for each textile. You can also request memo samples directly from our partner's websites.

In addition to the textiles shown in this collection, we are happy to grade-in other textile selections from any of these brands by request. Please note that other selections may require testing before approval for use and availability of yardage may affect your order's production timeline.

We understand that every project is unique, and some customers may prefer to use their own fabrics from brands outside of our partners. We are happy to work with your COM or COL. We require that all textiles be pre-paid, side-marked with customer name and project name, then sent directly to our facility: Emblem, 13405 Yorba Ave, Chino CA 91710.

Please note that Emblem does not warranty any textiles or leathers. Please refer to warranty information and terms of use information on our textile partners' websites.

Questions? Contact your Emblem sales representative or Emblem customer service by emailing hello@emblembuilt.com.
